

# Create a map of your own goblin world

At the start of each goblin book is a map showing where the goblins in the story live. Look closely at how the map shown here was drawn.

A good way to draw a map is to imagine you are flying over your goblin world, looking down. Draw how your world would look from above.

Here are some things you could add to your map:  
Forests, swamps, rivers, seas, mountains, villages, caves, roads, tunnels, fields.

Don't forget to show where your goblin family lives!
