

Now that you have created some goblin characters, decided where they live and what their homeland looks like, you are ready to write your own goblin short story! Think of a special day – a birthday or a festival perhaps. What do you think happens to your goblin characters on this special day? You can illustrate your story with pictures if you like – ask for some paper!

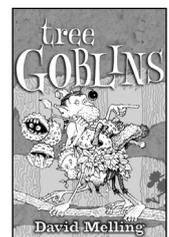

A large rectangular area with a hand-drawn, irregular border, containing horizontal lines for writing a story.

Continue your story on a piece of paper...
